13. Other questions and comments?

We must make use of the space available to do good in Keighley.

I think the plans and artist's impression look good. I am particularly pleased they include eating area and showers.

When is the church open? I would drop in if I knew. More general information needed for general community.

More needed on social media for choirs & services - especially for Easter and Christmas. Also more information for volunteering.

The church ceiling should be lowered to improve the acoustics which have always been difficult for those who are audibly challenged (deaf and with hearing aids) the upper space could also be used for more quiet rooms

Good luck with the project!

A brilliant idea. The town needs this.

I am glad to see anything that will move society towards more peaceful and productive ways.

How are you going to fund this project?

This will create a much-needed focus for the town centre and create much-needed community space. I like its flexibility.

Good luck with your plans!
